Lycos is a survivor. Established in 1995, we were originally a search engine — before most people even knew what a "search engine" was. Times change, and Lycos has changed with them, evolving from a single search engine into a focused network of community and social sites that include Gamesville.com, Tripod.com, Angelfire.com, and of course, Lycos.com. How has Lycos managed to survive so many market changes while others have perished? The key to our longevity is diversity; we have integrated and fostered different brands, sources of revenue, and meaningful online communities for over 15 years. Bringing people together to interact, have fun, and experience the best the web has to offer is in our DNA. It's who we are, and it's something we're happy to offer now, and forever. Lycos is a wholly owned subsidiary of Ybrant Digital, the end-to-end global digital marketing company. Lycos is headquartered in Waltham, Massachusetts. Ybrant Digital is headquartered in Hyderabad, India and has a global .presence with offices in 20 countries
