OpenDNS ppu pdf.pdf

About operDN

OpenDNS secures the networks used by more than 50 million people to connect to the Internet. Across all continents, in Fortune 50 enterprises and small businesses alike, at one in every three U.S. schools and hundreds of thousands of homes. Our services are smart and lightweight, yet more powerful than anything else available. They require no software or hardware, and can be set up in just minutes, immediately taking effect across all devices that connect to the Internet –– tablets, smartphones, even gaming consoles.
