Project Euclid mathematics and statistics onlineProject Euclid was developed and deployed by the [Cornell University Library](#), with start-up funding provided by [The Andrew W. Mellon Foundation](#), and is now jointly managed by the Cornell Library and [Duke University Press](#). It was originally created to provide a platform for small scholarly publishers of mathematics and statistics journals to move from print to electronic in a cost-effective way. Through a combination of support by subscribing libraries and participating publishers, Project Euclid has made 70% of its journal articles openly available. As of 2015, Project Euclid provides access to over 1.2 million pages of open-access content.
